Companies

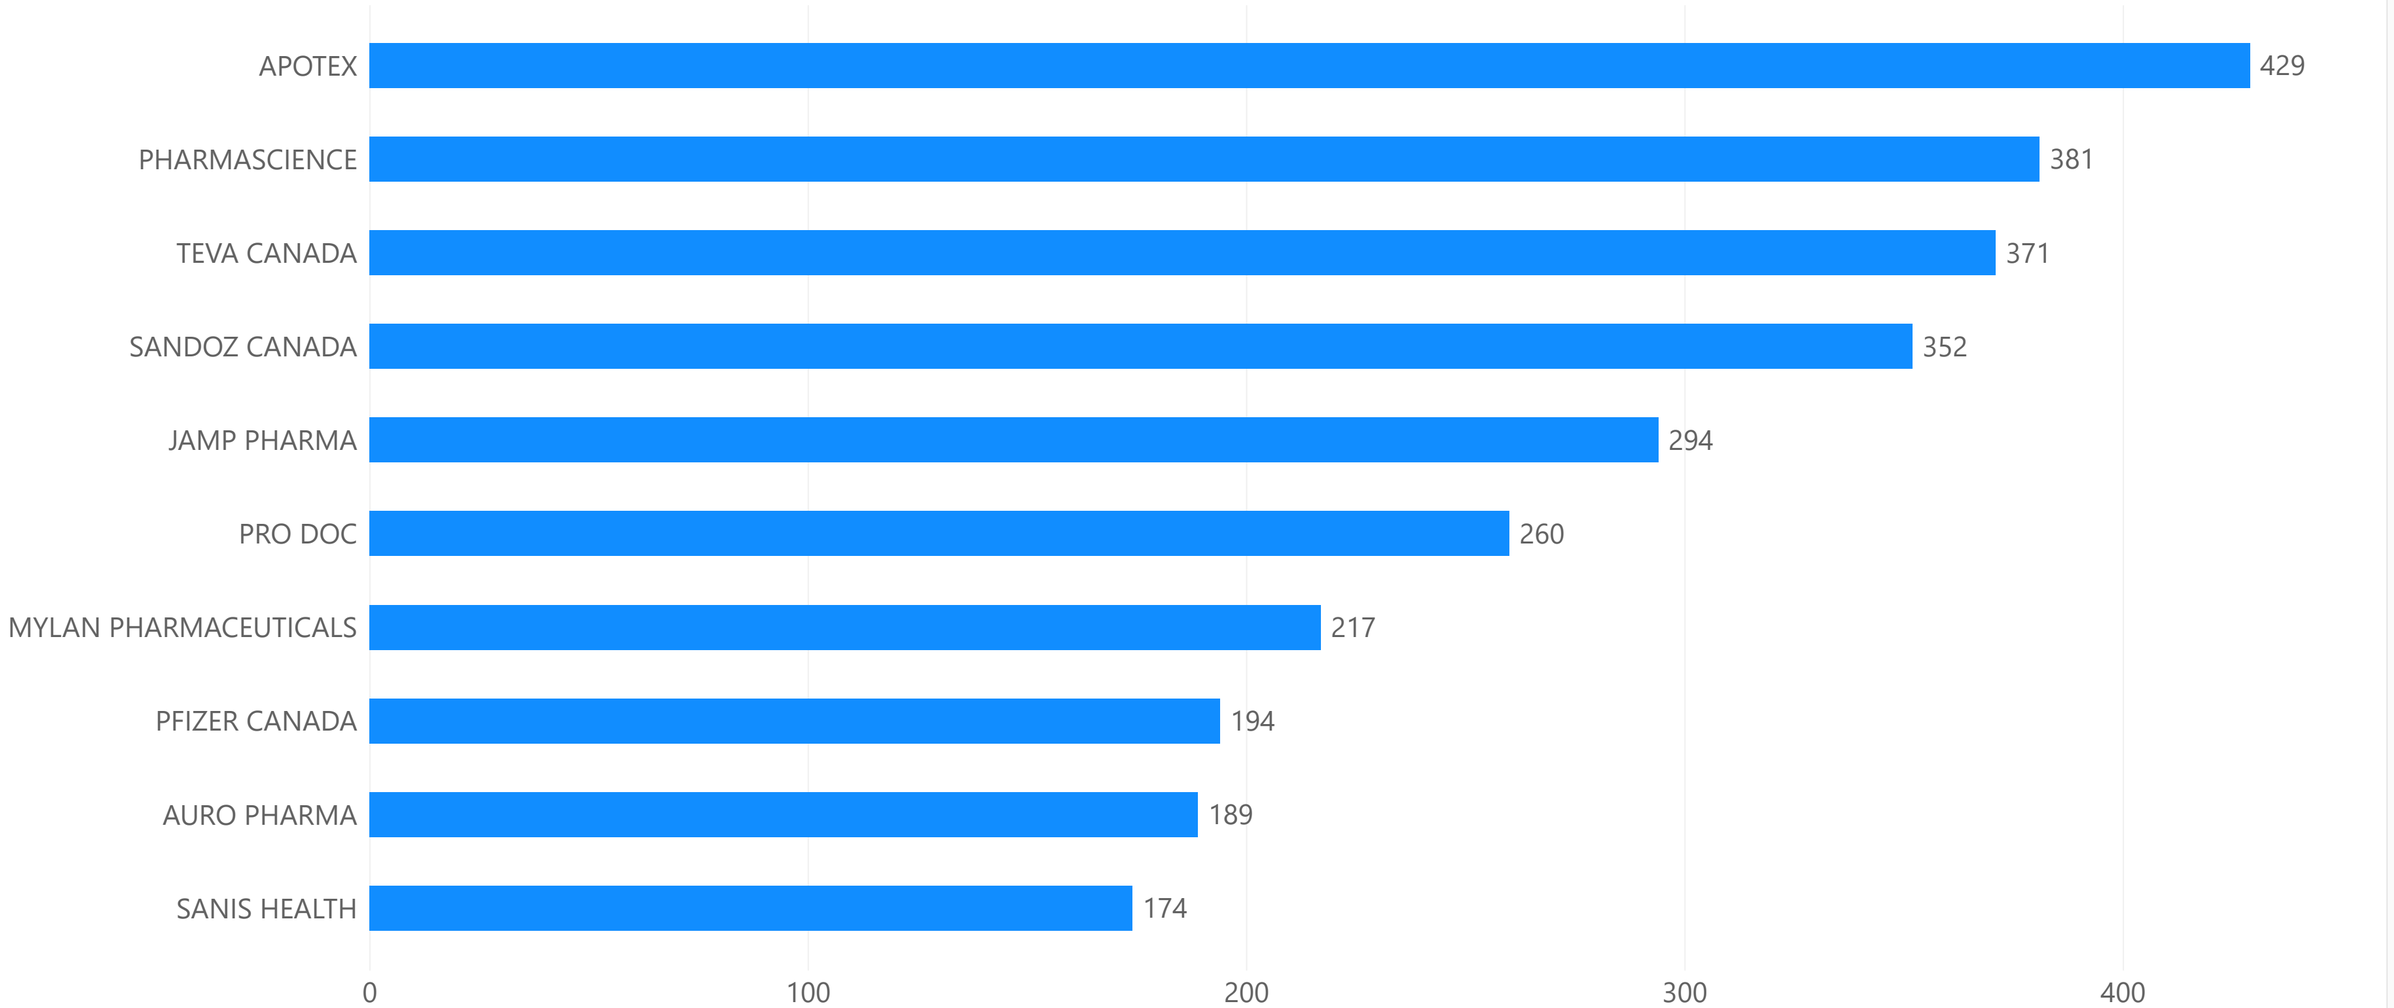

Pick a five-year period in the dropdown to see the top 10 for that period only.

Period

All

Top 10 companies by prescription drug lines

A drug line is one company's product with one ATC code, all strengths counted once

Therapeutic areas

Before 1996 the DPD holds only products still sold in 1996, so earlier periods undercount products that were withdrawn.

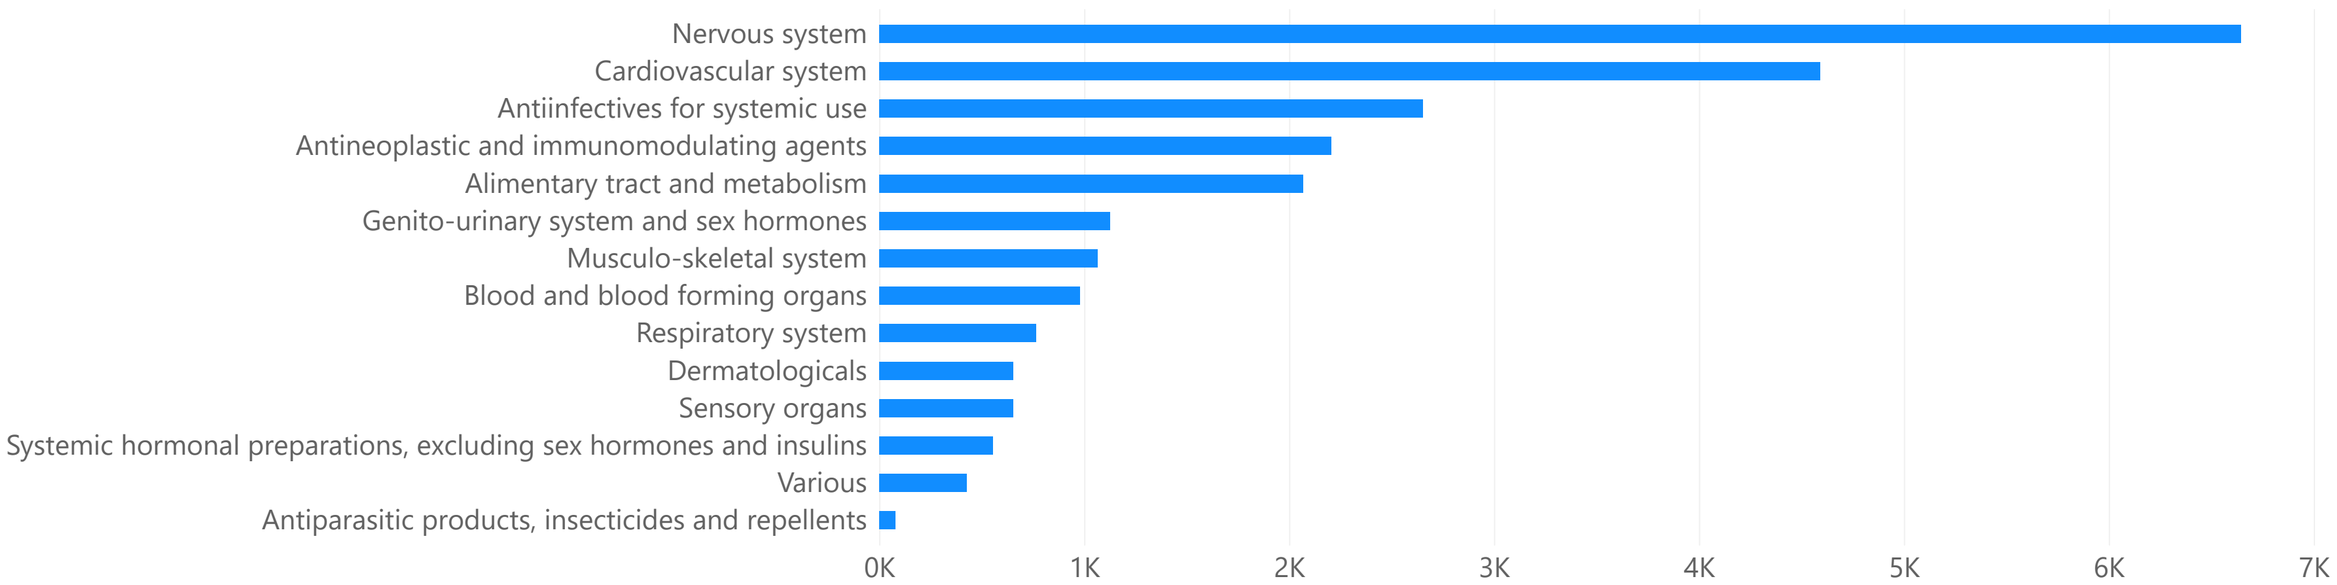

New prescription drug lines by therapeutic area, 1970 on

Drug lines by five-year period of first DPD record. Darker cells mean more lines. 2025-29 is incomplete.

Therapeutic area	1970-74	1975-79	1980-84	1985-89	1990-94	1995-99	2000-04	2005-09	2010-14	2015-19	2020-24	2025-29	**Total**

Prescription products by therapeutic area

Human prescription products (DINs, each strength counted), 24,462 in total

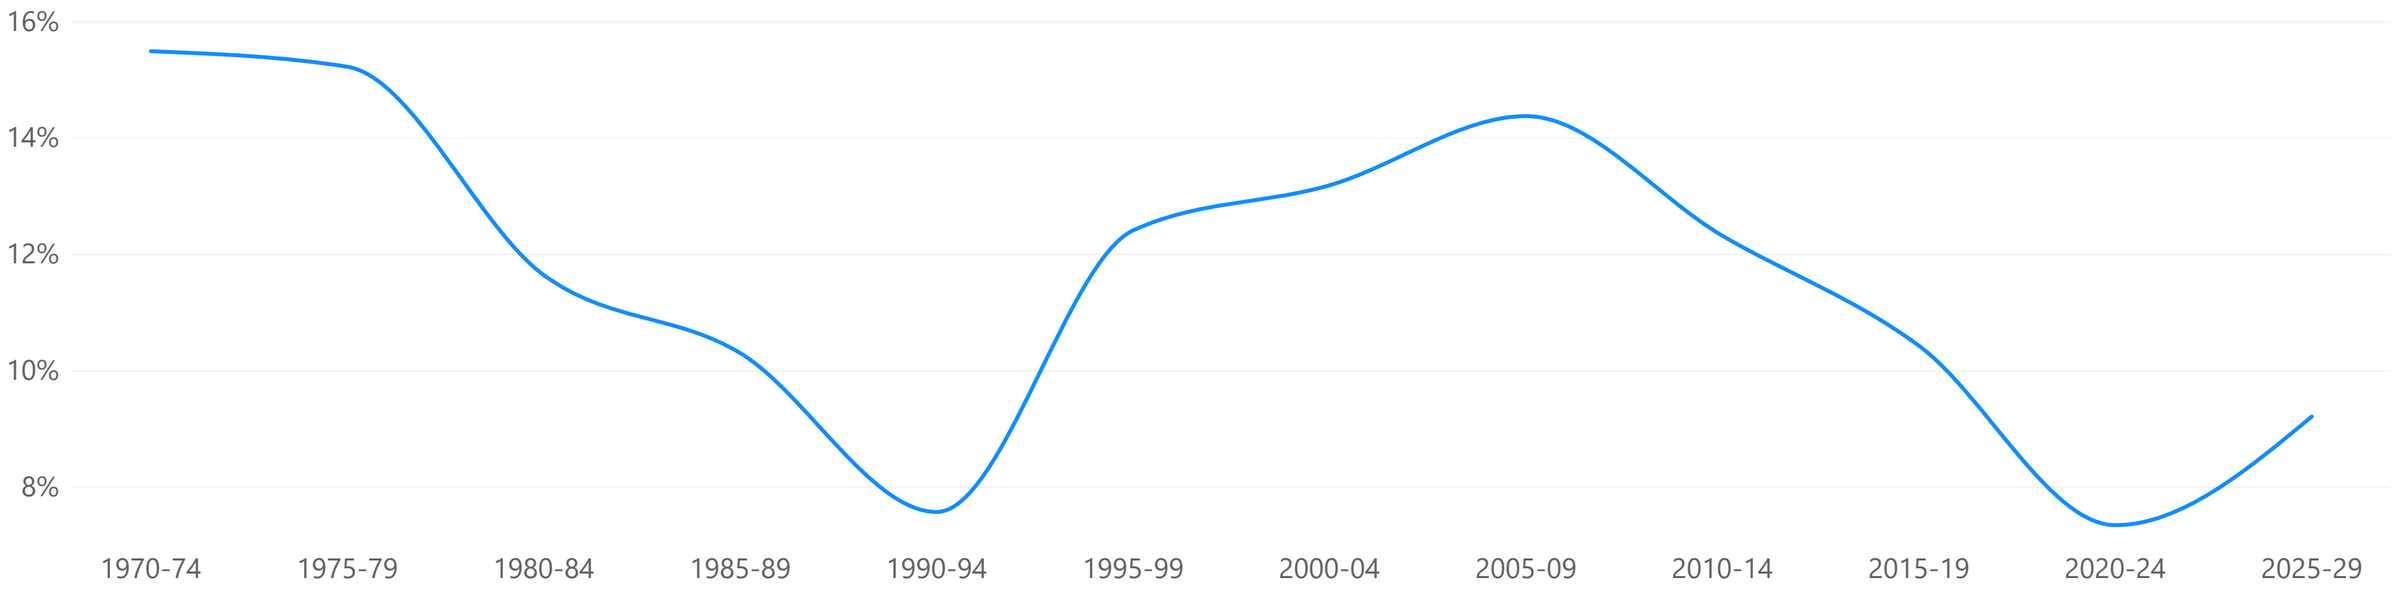

Psychiatric drugs (ATC N05 and N06)

Before 1996 the DPD holds only products still sold in 1996, so earlier periods undercount products that were withdrawn.

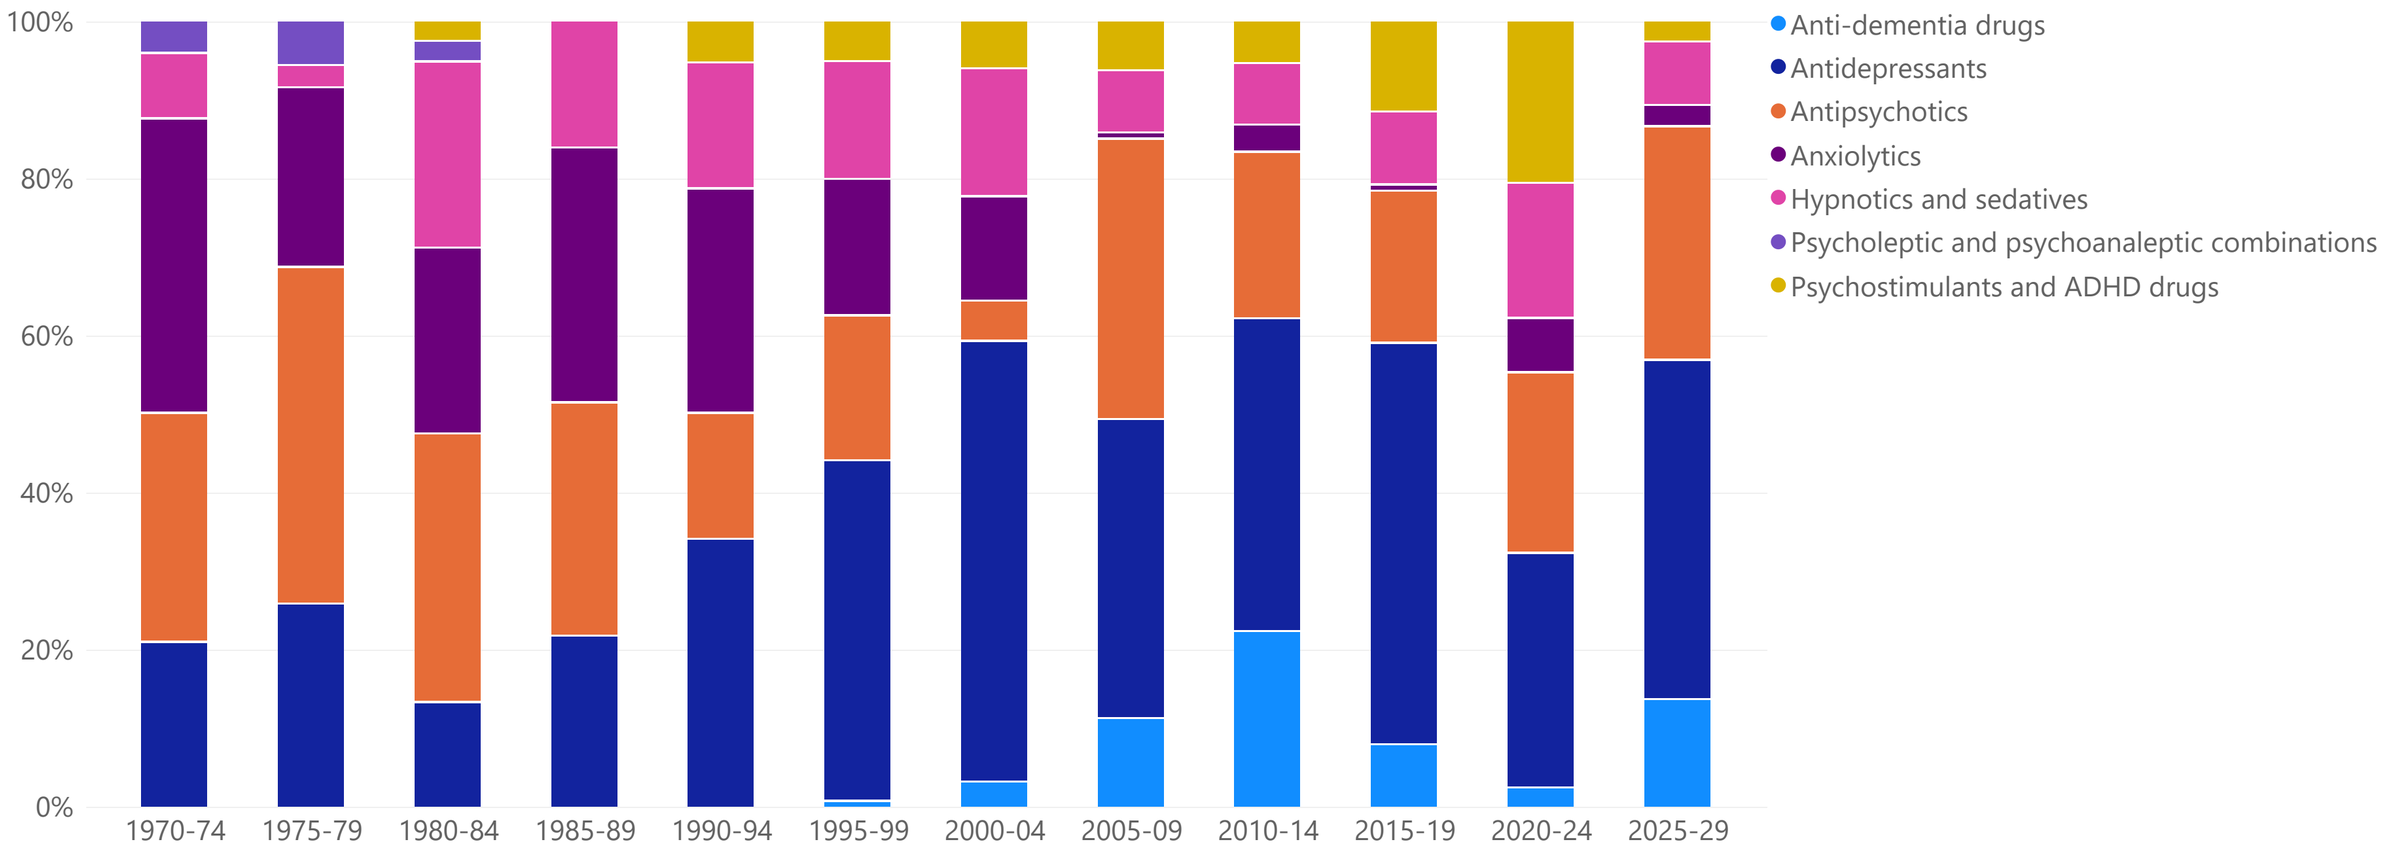

Psychiatric share of new prescription drug lines, 1970 on

ATC N05 and N06 as a share of new prescription drug lines

Mix of new psychiatric drug lines by class, 1970 on

Share of each class among new psychiatric drug lines

Ketamine and esketamine

Every human ketamine and esketamine product in the DPD, for the planned Safety Signal Explorer project.

Ketamine and esketamine products in the DPD

14 human products. Spravato (esketamine nasal spray) is the only esketamine. Ketamine is coded N01AX03, an anesthetic, so it is outside the psychiatric group.
